Thank you for the information. I remember working with Tom briefly when the Brownfields grant was just starting out. I will give him a call.

We never contacted the City of Bremerton for this site (because we did not have any credible evidence to name the City as a PLP at this time). Since Phil Williams has left, I don't know the new Public Works Director.

At one of my other site, where the City of Bremerton is the PLP, I work with Thomas Knuckey. He is the City's Managing Engineer. Phil was Tom's supervisor. May be you can contact Tom Knuckey at (360) 473-2376. He can direct you to the right person.

One more question, do you know who the contact is for the City of Bremerton, now that Phil Williams has left?
